In the case of the appeal of the Trustees and inhabitants of district No. 3 of Urbana and Pulney against the division of the commissioners in dividing said district in Jany. 1831 –

It appears that a site for a school house was fixed and a school house erected for the old district in June last which is on the Lake road. At the time of the division as appears by a statement agreed upon between the trustees and one of the commissioners of Urbana that there were only 35 children between 5 & 16 in the old district in the division one district has 17 and the other 18 children with a correct amount of taxable property. Both districts are so much weakened by the division & the inhabitants on the upper road are incommoded by the location of the school house it would be better to change the site

to divide the district - It is therefore decided that the decision of the commissioners in dividing said district No. 3 be set aside and that said district remain as it was in June last -

By George C. Edwards Henry S. Williams & John Cooper Junior, three of the Judges of the court of Common Pleas of the county of Steuben —

The appeal having been made on the sixth day of June last by James Brundage 2d Richard V. And at the said Judges having given notice of the said appeal to the said commissioners and to the said John Wallers & Daniel Waller

In witness whereof we have hereunto subscribed our names the 16th day of August 1832 -

Whereas the annual report of School District No. 4 & 8 in the towns of Wayne & Urbana for the year ending the 31st Dec 1836 was sent by the Trustees of said District to the town Clerk of the latter town in due season but in consequence of the hurry & absence of said town Clerk, was left with a clerk in the office of Morris Brown Esq next door to the office of said Clerk. And whereas in consequence of the omission of the person with whom the report was so left to deliver it to the town Clerk it did not reach its destination & the district was therefore not included by the Comrs in the distribution of the public money for the year 1837. And whereas it appears by affidavit presented to the Superintendent that the whole number of children in the town of Urbana between the ages of 5 & 16 years on the 31st Dec 1836 was 513 of whom 15 resided in the district aforesaid and that the public money distributed to the district in said town in April last was $150.20 of which sum said district would have received $10.70 if its report had been received by the Commissioners And whereas by the annual report of said District made to the Commissioners of Common Schools of the town of Wayne a copy of which has been presented to the Superintendent it appears that said district had complied in all respects with the requirements of the law so as to become entitled to a share of the school moneys for the year 1837.

It is hereby Ordered that the Commissioners of Common Schools of the town of Urbana

pay to the Trustees of the said District out of the School Moneys to be distributed among the Districts in said town for the Year 1838 the sum of ten dollars and twenty Cents in addition to the sum which they may be entitled to receive on their annual report of said District for the Year ending the 31st December 1837.
