Resolved That the petition adopted be accepted. signed properly by the Town Board of Health and forwarded to the State Board of Health. viz

To the State Board of Health, — Albany N.Y.

The undersigned the Board of Health of the Town of Urbana in the county of Steuben and of the State of New York respectfully state that they reside near the shores & water of Lake Keuka, in said state & near to certain lands which are overflowed by the water of said Lake, That the water of said Lake have been for some time past; & are now kept above their natural heights & have thereby overflowed & submerged large quantities of lands in & near Urbana & near to the inhabited portions of said Town. That upon the decline of said water said localities have been made unhealthy to the public & when the waters recede this spring the prospects are that the danger to public health will be much greater than ever. The area affected by this unnatural overflow or the backing of the water of said Lake extends many miles along said Lake & at the head of said Lake & affects the health of thousands of people. This unnatural condition is produced by dams maintained in or near the outlet of said Lake at Penn Yan by individuals.

If said dams were removed & said outlet left in its normal condition the troubles complained of herein would not exist or if said dams were lowered & widened a little said troubles would not exist. Your petitioners claim that said dams are maintained without right & the existence of the same in their present condition has & does greatly endanger the public health of thousands of people and are thereby a public nuisance & your petitioners respectfully request this Hon. Board to send to this locality a representative to investigate these complaints & to take such action in the premises as are necessary & proper.

We would respectfully suggest that a visit should be made early this spring during the highest water period & also later so that your representative can fully see the effects of the said overflow & your petitioners will ever pray &c
